Are we on track for this?

For the other Round 1 homes: I only did one day of prelims for the other homes so we should get the rest of the results out today for prelims.

Hi Cindy -

Rich asked me to check with you regarding the status and schedule for the analysis of the four locations receiving water. Samples from these locations (HW-4, HW-6, HW-7 and HW-8a) are being analyzed for metals only. I understand that we were expecting to have lab-validated results from Ft Meade lab by Wed 6/6? Would you please check and let me know if the lab can meet that deadline?

Thanks - Kelley
